

ABOUT THE CONFERENCE:

In this modern world of computer science, researchers focus mainly on the integration of Artificial Intelligence and other computational and control resources to create a next generation intelligent information systems. This International Conference on Intelligent Computing, Information and Control Systems (ICICCS 2020) organized on 25-26, June 2020 by Malla Reddy College of Engineering, Maisamaguda, Dhulapally, post via Kompally, Secunderabad-500100, India. Aims to bring together the new intelligent ideas and recent advances in computational intelligence and control techniques involved in Computer Science, Engineering and Technology research field. This Conference will be a platform to focus on the core technological developments in the emerging fields like Artificial Intelligence [AI], Machine learning, Image computing, intelligent information retrieval, intelligent agents, Fuzzy logic control, and so on.

ABOUT THE COLLEGE:

Malla Reddy College of Engineering (MRCE) has been established under the aegis of the Malla Reddy Group of institutions in the year 2005, a majestic empire, founded by chairman Sri. Ch. Malla Reddy. He has been in the field of education for the last 22 years with the intention of spearheading quality education among children from the school level itself.

Since the beginning Mr. Malla Reddy has endeavored to ensure quality education and carved a niche for himself by managing this group of institutions.
